PETAL

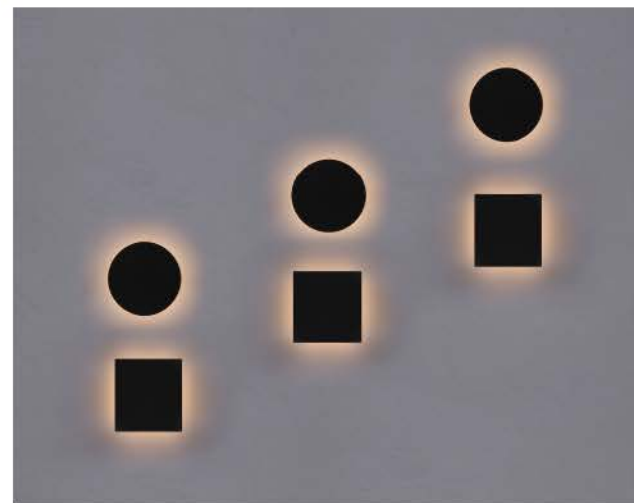

You may have seen that the petals dancing in the sky. Can you imagine that the petals dancing on the floor? Causing by the special diffuser, the light spot comes to be different shapes of petal. Waking through the corridor, it seems that you're dancing with light petals.

PLUTO

The geometric and simple design receives public high recognition. The application of multiple lighting solution can solve the all kinds of lighting demands.

CERTUS

Outdoor lighting has become a part of the lighting system. "Guidance" is the property of outdoor lighting system. The light guide series lamp design is based on this property. The upper and lower of lamp tube makes the light beam not only has the practical function in the dark night but also has the intense decorative. Compact geometric lighting gives out a high quality light beam to guiding the direction of the night.
